OBJECTIVE

Motivated BS Information Technology graduate and self-driven full-stack developer with strong experience in modern web and mobile application development using TypeScript, React.js, Node.js, and cloud-integrated back-end services. Comfortable working across the entire stack and building production-ready applications independently as well as collaborating closely with end users and stakeholders to deliver practical, user-centered solutions. Strong communicator with proven leadership experience through three years in student government. Seeking an entry-level IT role where I can contribute real-world development skills, a modern approach to software engineering, and a genuine commitment to building things that work.

EDUCATION

Bachelor of Science in Information Technology

Central Philippine State University | Graduated: 2026

Latin Honor: Magna Cum Laude | Consistent Dean's Lister

TECHNICAL SKILLS

Front-End Development: React.js (Advanced), TypeScript (Advanced), JavaScript (Advanced), HTML5 (Advanced), CSS3 (Advanced), Tailwind CSS (Advanced), Vue.js (Intermediate)

Back-End Development: Node.js (Advanced), Express.js (Advanced), REST API Design (Advanced), PHP (Intermediate)

Mobile Development: React Native (Intermediate), Cross-Platform Mobile Application Development (Intermediate)

Databases: Supabase (Advanced), Firebase (Intermediate), PostgreSQL (Intermediate)

Tools & Platforms: Git (Advanced), GitHub (Advanced), VS Code (Advanced), Postman (Intermediate), Google Stitch (Intermediate)

Currently Learning / Can Pick Up: Bootstrap, Laravel, MySQL, Docker, AWS / Cloud, Figma

Key Skills: React.js, TypeScript, Node.js, REST API, Git, Firebase, PostgreSQL, Supabase, React Native, AI Integration, Full-Stack Development, Mobile Development, Cloud Services

PROJECTS

Pulupandan Water District System | 2025 - 2026

Capstone — Solo Developer | Web Application

- Designed and built a full water billing management system from scratch as a solo developer, collaborating directly with 5-6 staff members to gather requirements and ensure the system fit their real workflow.
- Consists of three web applications: a mobile-responsive Reader App for field meter reading on phones, and desktop web apps for the Admin Dashboard and Cashier payment processing.
- Features invoicing, receipt generation, billing cycle management, and user role access control across 3 distinct user roles.
- Handled all phases independently: requirements gathering, database design, UI/UX, and API development.
- System was well-received by the client, who expressed intent to purchase it for continued operational use.

NORTH - AI Skill Matcher and Career Path Tool | 2026

north-wana.vercel.app | Web Application

- Built an AI-powered web app that maps a user's skills and surfaces relevant income and career paths.
- Integrated AI decision logic to provide personalized direction based on user input.

Alter - AI Alternate Timeline Chat | 2025 - 2026

alter-crm.vercel.app | Web Application

- Developed a creative AI chat application that simulates conversations with an alternate version of the user.
- Features timeline branching logic, session encryption options, and a fully custom dark/light UI.

DRIFT - Spatial Music and Style Archive | 2026

drift-v1.vercel.app | Web Application

- Created a high-fidelity spatial web experience for curating sound and visual aesthetics.
- Focused on immersive UI design and smooth front-end performance.

Dreamly - AI Story Maker for Kids | 2025 - 2026

Mobile Application

- Built a mobile app that uses AI to generate personalized stories for children.
- Designed with a kid-friendly UI focused on simplicity, engagement, and safe content.

After Midnight - Thought Release App | 2024 - 2026

Mobile Application

- Developed a unique mobile app that only unlocks between 12:00 AM and 4:00 AM for late-night journaling and thought release.
- Implements time-based access control and a distraction-free writing experience.

Tindadone - Point of Sale System | 2026 (In Progress)

Mobile Application

- Currently building a full POS mobile app designed for any type of retail store — food, sari-sari, hardware, machine parts, and more.
- Features stock management, credit tracking, and expense monitoring in one unified platform.

More projects available at portfolio link above.

LEADERSHIP AND INVOLVEMENT

Supreme Student Government (SSG) Member | 3 Years

- Participated in student governance, policy discussions, and campus-wide initiatives for three consecutive years.

Floor Leader | 2nd and 3rd Year

- Elected by peers to coordinate floor-level activities and act as liaison between students and faculty.

University Volunteer | 1st Year

- Actively volunteered in university events and community outreach programs.

ACHIEVEMENTS AND AWARDS

- Magna Cum Laude - Graduated with high academic distinction
- Consistent Dean's Lister throughout the entire degree program
- Sole developer of a complete capstone information system for a fellow student
